

SUPPORT DR. KATO & FAMILY

Immediate support. A longer-term vision inspired by Dr. Kato.

@chrislchung

venmo

We are collecting voluntary personal gifts to help Dr. Kato, Dr. Higgs, and their family with childcare and essential household needs during Dr. Kato's hospitalization.

Dr. Kato's example has inspired me, as organizer, to explore creating a sustainable MMMC Crisis Relief Fund: a future source of comfort and security for Maui Memorial physicians, nurses, technicians, therapists, and other hospital staff—and, over time, healthcare workers more broadly—during serious crises, in recognition of the sacrifices they make every day. The fund is a proposed future initiative and is not yet established or guaranteed.

CONTRIBUTION TERMS

This is a personal-gift campaign, not a charity, and contributions are not tax-deductible. Funds will first support reasonable Kato-family needs arising from this crisis. Any remaining balance may be held separately for up to 12 months. By contributing, you authorize your pro rata share of that balance to be transferred to the proposed MMMC Crisis Relief Fund only if it is legally established and able to accept the funds during that period. If it is not established, your pro rata share of the remaining balance will be returned where reasonably practicable. No goods or services are provided in exchange for a contribution.

Organizer: Christopher L. Chung, MD

Organizer receives no compensation. Contributions and distributions will be tracked and reported transparently.

Thank you for supporting the Kato family—and the broader Maui Memorial community and long-term vision they have inspired.
